

NANDURI Kushath Sri Krishna Rao

Data Analyst

Paris, France Email: nkushath@gmail.com +33 6 86 80 90 26 kushath.com linkedin.com/in/kushath-nanduri

PROFILE

Data Science & Business Intelligence Master's graduate (EDC Paris Business School), focused on data analysis, dashboarding and data quality. Hands-on with Power BI, Tableau, SQL, Excel and Python (pandas), built through graded academic projects and shipped personal products. Comfortable turning raw, messy data into clear reporting that supports decisions. Seeking a Data Analyst role or internship in Paris.

PROJECTS

Project Performance Monitoring Dashboard

Academic — 18.25/20

Tableau

- Built an interactive dashboard over 520 project-phase records (20 fields) tracking planned vs. actual cost, duration and deliverables.
- Designed variance metrics and automated alert flags to surface projects breaching cost, duration or deliverable thresholds.
- Broke performance down by region, country, entity type and project phase for fast exception review.

Employee Attrition Analysis

Academic — 18/20

Power BI · DAX

- Analysed HR attrition using Power BI key-influencer visuals across satisfaction, work-life balance and overtime.
- Identified the main drivers of attrition and presented them for a non-technical audience.

ZXERO — content-access product

2025

Shipped product · kushath.com

- Designed, built and shipped a content-access firewall to first paying customers, reaching \$1,247 in live Stripe revenue.
- Owned the product end-to-end and wound it down deliberately once market conditions shifted.

forge-prep — data-readiness tooling

2025

Python · kushath.com

- Built a CLI that scores dataset readiness 0-100 across six dimensions: volume, quality, deduplication, PII, language and format.
- Automated data-quality checks that flag issues before downstream use.

EXPERIENCE

DSP Architect Intern

Oct 2022 - Jan 2023

[Zonta Technologies](https://zonta.com) — Hyderabad, India

- Developed and executed test strategies and test plans for platform evaluation.
- Supported NDL (Network Design Lab) and FIT (First in Test) for product integration, certification, trial and interoperability testing.
- Ran quality checks and validation of outputs with attention to detail and technical rigour.

Student Member

May 2022 - Feb 2024

IEEE

- Collaborated with peers across an international technical association; developed structured reporting and teamwork habits.
